HCS7 Freeway Diverge Report

Project Information

Analyst	AB	Date	10/9/2017
Agency	LLG	Analysis Year	Year 2040 With Project (Phase 1)
Jurisdiction	SR-210 WB Off-Ramp to Highland Ave	Time Period Analyzed	PM Peak Hour
Project Description	2-16-3777-1 San Manuel Casino Expansion and Hotel, San Bernardino County		

Geometric Data

	Freeway	Ramp
Number of Lanes (N)	3	1
Free-Flow Speed (FFS), mi/h	70.0	35.0
Segment Length (L) / Deceleration Length (L_D), ft	1500	190
Terrain Type	Level	Level
Percent Grade, %	-	-
Segment Type / Ramp Side	Freeway	Right

Adjustment Factors

Driver Population	All Familiar	All Familiar
Weather Type	Non-Severe Weather	Non-Severe Weather
Incident Type	No Incident	-
Final Speed Adjustment Factor (SAF)	1.000	1.000
Final Capacity Adjustment Factor (CAF)	1.000	1.000
Demand Adjustment Factor (DAF)	1.000	1.000

Demand and Capacity

Volume (V_i), veh/h	4865	535
Peak Hour Factor (PHF)	0.95	0.95
Total Trucks, %	2.00	2.00
Single-Unit Trucks (SUT), %	-	-
Tractor-Trailers (TT), %	-	-
Heavy Vehicle Adjustment Factor (f_{HV})	0.980	0.980
Flow Rate (v_i), pc/h	5226	575
Capacity (c), pc/h	7200	2000
Volume-to-Capacity Ratio (v/c)	0.73	0.29

Speed and Density

Upstream Equilibrium Distance (L_{EQ}), ft	-	Density in Ramp Influence Area (D_R), pc/mi/ln	31.6
Distance to Upstream Ramp (L_{UP}), ft	-	Speed Index (D_S)	0.480
Downstream Equilibrium Distance (L_{EQ}), ft	-	Flow Outer Lanes (v_{OA}), pc/h/ln	1846
Distance to Downstream Ramp (L_{DOWN}), ft	10000	Off-Ramp Influence Area Speed (S_R), mi/h	56.6
Prop. Freeway Vehicles in Lane 1 and 2 (P_{FD})	0.603	Outer Lanes Freeway Speed (S_O), mi/h	73.5
Flow in Lanes 1 and 2 (v_{12}), pc/h	3380	Ramp Junction Speed (S), mi/h	61.6
Flow Entering Ramp-Infl. Area (v_{R12}), pc/h	-	Average Density (D), pc/mi/ln	28.3
Level of Service (LOS)	D

Subject: San Manuel Hotel & Casino Expansion – Response to IGR Comments

Dear Ms. Hickey:

Thank you for providing the California Department of Transportation (Caltrans) the opportunity to review and comment on the Response to IGR Comments for the San Manuel Hotel and Casino Expansion (Project), located near the cities of Highland and San Bernardino, within and adjacent to the existing San Manuel Casino on the Tribe's Reservation in San Bernardino County. The project involves construction of an additional 795,000 square feet of hospitality and entertainment facilities and the expansion of the Tribe's existing gaming facilities. The proposal also include an approximate 2,200 stall parking structure.

As the owner and operator of the State Highway System (SHS), it is our responsibility to coordinate and consult with local jurisdictions when a proposed development may impact our facilities. We have the following comments regarding this project:

1) Page 19 & 20: Please do not use Live Theater Code 441 as insufficient data is available per the ITE Manual. Use a land use code that is equivalent to concerts or draw from the tribes experience with holding concerts at this location. A1-1

2) A freeway widening project (EA# 0C70U) on SR-210 (PM 25.00/33.20) is in progress which will add an auxiliary lane from Highland Avenue to San Bernardino Avenue and add accel/decel lanes at selected locations. Construction is expected to be completed in June 2021. We feel this addresses previous comments # 3 and 5c from our letter on this project dated February 21, 2018. A1-2

3) Also, a ramp widening project (EA# 1H640) at the east bound off-ramp (SR-210, PM 26.50) to Highland Avenue is in progress. Construction is expected to be completed in September 2019. We feel this addresses previous comments # 6 a and b from our letter on this project dated February 21, 2018. A1-3

4) We consider comments # 1, 2, 4, 5 a, b and 8 from our letter on this project dated February 21, 2018 are addressed or are considered to be non-applicable. A1-4

These recommendations are preliminary and summarize our review of materials provided for our evaluation. If you have any questions regarding this letter, please contact Jacob Mathew (909) 806-3928 or myself at (909) 383-4557.

Sincerely,

Mark Roberts

Subject: San Manuel Hotel & Casino Expansion –Traffic Impact Analysis

Dear Ms. Hickey:

Thank you for providing the California Department of Transportation (Caltrans) the opportunity to review and comment on the Traffic Impact Analysis for the San Manuel Hotel and Casino Expansion (Project), located near the cities of Highland and San Bernardino, within and adjacent to the existing San Manuel Casino on the Tribe's Reservation in San Bernardino County. The project involves construction of an additional 795,000 square feet of hospitality and entertainment facilities and the expansion of the Tribe's existing gaming facilities. The proposal also include an approximate 2,200 stall parking structure.

As the owner and operator of the State Highway System (SHS), it is our responsibility to coordinate and consult with local jurisdictions when proposed development may impact our facilities. We offer the following comments:

1) Page 16: Correct the published data from March 2013 to March 2003.

2) The SR-210/Del Rosa Avenue Interchange should be included in analysis.

3) Weaving analysis on the mainline (SR-210) between Del Rosa Avenue and Highland Avenue should be considered.

4) Provide queue lengths for all movements at ramps intersections in Tables.

5) Year 2020, Saturday PM Peak House + Project (Phase 1):

   a) The LOS for each phase should be operated at acceptable LOS D or better. For example, eastbound through on Highland Avenue at Intersection #10, shows LOS F.

A1-5

b) Please add to your methodology per HCM 6th edition, that a volume over capacity ratio greater than or equal to one is considered a LOS 'F'.

c) The queue lengths on Highland Avenue between EB off ramp and Arden Avenue; and Arden Avenue and WB off ramp exceeds the intersections spacing.

6) Year 2022, Saturday PM Peak House + Project (Phase 2) with Mitigation:

a) Most movements in lane group LOS for Intersection #10 are failing (Northbound left with LOS F and northbound through with LOS E; Southbound right with LOS E; Eastbound left with LOS E and eastbound through with LOS F; and Westbound left with LOS F).

b) The queue lengths on Highland Avenue between EB off ramp and Arden Avenue; and WB off ramp are longer than the intersections spacing. Therefore, your recommended improvement for northbound direction will not improve LOS.

7) Page 19 & 20: Please do not use Live Theater Code 441 as insufficient data is available per the ITE Manual. Use a land use code that is equivalent to concerts.

8) Page 19 & 20: A K-factor of 9% AM and 11% PM should be used to convert daily to peak hour. If you believe a multi-peak hour is applicable, an 8% and 10% K-factor may be used for AM and PM respectively.

A1-5 cont.

These recommendations are preliminary and summarize our review of materials provided for our evaluation. If you have any questions regarding this letter, please contact Jacob Mathew (909) 806-3928 or myself at (909) 383-4557.

Sincerely,

Re: San Manuel Hotel, Casino and Parking Expansion

Dear Ms. Wade:

As a strong voice for the economic development of our two-county region, The Inland Empire Economic Partnership would like to express its support of the San Manuel Band of Mission Indians' hotel, casino and parking expansion.

Vibrant economic development is crucial to the resurgence of Inland Southern California. As a region with a population greater than the state of Oregon, the two-county region needs our businesses to evolve and expand. One such organization is the San Manuel Band of Mission Indians.

San Manuel is unique in our area. It is at once a federally recognized sovereign Indian nation with its own government, a prominent community partner, a generous philanthropist and a thriving enterprise. Since 2016, San Manuel has increased its number of employees from over 4,000 to nearly 4,500 workers with an estimate 70 percent of those employees coming from within San Bernardino County. Its economic impact to San Bernardino County alone is estimated at more than $1 billion.

A2-1

Members of our organization have had the opportunity to learn about the Tribe's proposed hotel, casino and parking expansion and we support the effort. The new expansion holds the promise of 1,400 construction jobs and 1,200 permanent jobs that span a broad variety of education and skill sets.

As a community partner, San Manuel has a proven record of philanthropy that reaches across education, health care, community service, infrastructure public safety, the arts and Indian affairs. To that end, they have provided briefings on their project and shared the results of their environmental impact report studies with government agencies, chambers of commerce, economic development organizations and the public.

The Inland Empire Economic Partnership would like to add its support for the San Manuel expansion project and the numerous economic benefits it will bring our region.

Sincerely,

Paul Granillo
President and CEO
Inland Empire Economic Partnership

Re: San Manuel Hotel, Casino and Parking Expansion

Dear Ms. Wade:

As a member of the health care community who has worked with the San Manuel Band of Mission Indians, I would like to add my support to the Tribe's efforts to develop its hotel, casino and parking expansion.

Members of our organization have had the opportunity to learn about the Tribe's proposed hotel, casino and parking expansion and we support the effort. To that end, they have provided briefings on their project and shared the results of their environmental impact report studies with government agencies, chambers of commerce, economic development organizations and the public.

A3-1

We believe the economic benefits of this expansion will reach well beyond the Tribe. San Manuel has been a long-time partner in the effort to improve the health and education of the residents of San Bernardino County. Since 2009, it has given more than $80 million to the region's hospitals, schools and philanthropies.

The new expansion not only will generate up to 1,400 construction jobs and 1,200 permanent jobs, it will allow the Tribe to further its mission of giving back to the community through its support of schools, universities, charities and hospitals, such as ours.

Partnership would like to add its support for the San Manuel expansion project and the numerous economic benefits it will bring our region.

Sincerely,

Douglas Kleam

RE: San Manuel Band of Mission Indians Hotel, Casino and Parking Expansion Project

Dear Ms. Wade:

Being a native of San Bernardino, I have watched my city change through the years. My father was employed by the Santa Fe Railroad and I made many new friends with new people coming into our community through Norton Air Force Base. Times changed and these two great employers left our city. A new employer emerged, not without controversy, however, a family business located in the heart of San Bernardino and employing thousands of people, so helping mitigate that loss.

As the President/CEO of the San Bernardino Area Chamber of Commerce I value the economic impact The San Manuel Band of Mission Indians has made to San Bernardino County alone, which is estimated to be in excess of $1 billion. My chamber members were excited to hear the presentation regarding the Tribe's proposed hotel, casino and parking expansion and eagerly anticipate the new visitors and revenue it will bring to our area.

This project will continue to foster the positive growth that the tribe has introduced to our region's economy and continue contributing greatly to the economic resurgence to the City of San Bernardino. It is estimated that of the 4,500 workers employed by San Manuel, 70 percent of those come from within San Bernardino County.

The San Manuel Band of Mission Indians believe in the communities in which they live and do business. They contribute millions of dollars to philanthropic organizations yearly making them an important partner in helping our region grow and thrive. The Tribe's impact extends to our School Districts, Hospitals, Community Service, Infrastructure, Police Service, and the Arts. The Tribal members are involved and they care.

The San Bernardino Area Chamber of Commerce would like to express its support of the San Manuel Band of Mission Indian's Hotel, Casino and Parking Expansion Project.

Sincerely,

Judi Penman
President/CEO
San Bernardino Area Chamber of Commerce

Re: San Manuel Hotel, Casino and Parking Expansion

Dear Ms. Wade:

As members of the education community who has worked with the San Manuel Band of Mission Indians, we would like to add my support to the Tribe's efforts to develop its hotel, casino and parking expansion.

The Tribe has provided briefings on their project and shared the results of their environmental impact report studies with government agencies, chambers of commerce, economic development organizations and the public. Members of our organization have had the opportunity to learn about the Tribe's proposed hotel, casino and parking expansion and we support the effort.

Much like their philanthropy, we believe the economic benefits of this expansion will reach well beyond the Tribe. San Manuel has been a long-time partner in the effort to improve the health and education of the residents of San Bernardino County. Since 2009, it has given more than $80 million to the region's hospitals, schools and philanthropies.

A6-1

Since 2016, San Manuel has increased its number of employees from over 4,000 to nearly 4,500 workers with an estimate 70 percent of those employees coming from within San Bernardino County. Its economic impact to San Bernardino County alone is estimated at more than $1 billion.

The new expansion not only will generate up to 1,400 construction jobs and 1,200 permanent jobs, it will allow the Tribe to further its mission of giving back to the community through its support of hospitals, universities, charities and school districts, such as ours.

The San Bernardino City Unified School District would like to add its support for the San Manuel expansion project and the numerous economic benefits it will bring our region.

Sincerely,

Dale Marsden, Ed.D
Superintendent

Re: San Manuel Hotel, Casino and Parking Expansion

Dear Ms. Wade:

As a member of the non-profit community who has worked with the San Manuel Band of Mission Indians, the Boys & Girls Clubs of Greater Redlands-Riverside would like to add its support for Tribe's efforts to develop its hotel, casino and parking expansion.

I have had the opportunity to learn about the Tribe's proposed hotel, casino and parking expansion and I support the Tribe's project.

San Manuel has been an important partner in the effort to improve the health, well-being and education of the residents of San Bernardino County – particularly the region's youth. Since 2009, it has given more than $80 million to the region's hospitals, schools and philanthropies.

Their new expansion project will allow the Tribe to further its mission of giving back to the community through its support of schools, universities and charities such as ours. It will also create up to 1,400 construction jobs and 1,200 permanent jobs -- something our region very much needs.

Boys & Girls Clubs of Greater Redlands-Riverside supports the San Manuel expansion project and the numerous economic and community benefits it will bring our Inland Southern California.

Re: San Manuel Expansion Project

Dear Ms. Wade:

As a member of the health care community who has worked with the San Manuel Band of Mission Indians, I would like to add my support to the Tribe's proposed development plans to expand its business operations.

The Tribe has provided briefings on their project and shared the results of their environmental impact report studies with government agencies, chambers of commerce, economic development organizations and the public. Members of our organization have had the opportunity to learn about the Tribe's proposed expansion plans and we support the effort.

Much like their philanthropy, we believe the economic benefits of this expansion will reach well beyond the Tribe. San Manuel has been a long-time partner in the effort to improve the health and education of the residents of San Bernardino County. Since 2009, it has given more than $80 million to the region's hospitals, schools and philanthropies.

Since 2016, San Manuel has increased its number of employees from over 4,000 to nearly 4,500 workers with an estimated 70 percent of those employees coming from within San Bernardino County. Its economic impact to San Bernardino County alone is estimated at more than $1 billion.

The new expansion not only will generate up to 1,400 construction jobs and 1,200 permanent jobs, it will allow the Tribe to further its mission of giving back to the community through its support of schools, universities, charities and hospitals, such as ours.

Loma Linda University Health would like to add its support for the San Manuel expansion project and the numerous economic benefits it will bring our region.

A8-1

Sincerely,

Richard H. Hart, MD, DrPH

Sacramento, CA 95816

Re: San Manuel Hotel, Casino and Parking Expansion

Dear Ms. Wade:

Inland Action would like to express its support of the San Manuel Band of Mission Indians' hotel, casino and parking expansion. Inland Action is a non-profit organization of business and community leaders dedicated to the economic and community betterment of the Southern California region. Vibrant economic development is crucial to the resurgence of Inland Southern California. As a region with a population greater than the state of Oregon, it is important that our businesses evolve and expand. One such organization is the San Manuel Band of Mission Indians.

San Manuel is unique in our area. It is at once a federally recognized sovereign Indian nation with its own government, a prominent community partner, a generous philanthropist and a thriving enterprise. Since 2016, San Manuel has increased its number of employees from over 4,000 to nearly 4,500 workers, with an estimate of 70 percent of those employees coming from within San Bernardino County. Its economic impact to San Bernardino County alone is estimated at more than $1 billion. The new expansion holds the promise of 1,400 construction jobs and 1,200 permanent jobs that span a broad variety of education and skill sets. As a community partner, San Manuel has a proven record of philanthropy that reaches across education, health care, community service, infrastructure, public safety, and the arts.

A10-1

Members of our organization have had the opportunity to learn about the Tribe's proposed hotel, casino and parking expansion; and we support the effort. To that end, the Tribe has provided briefings on their project and shared the results of their environmental impact report studies with government agencies, chambers of commerce, economic development organizations and the public. We believe that the project will not have significant impacts on the off-Reservation environment after the proposed mitigation.

Inland Action would like to add its support for the San Manuel expansion project and the numerous economic benefits it will bring our region.

Sincerely,

Deborah Barmack

Re: San Manuel Hotel, Casino and Parking Expansion

Dear Ms. Wade:

The Building Industry Association, Baldy View Chapter understands the importance of job creation to our region's economy and to our housing market. That is why our chapter supports the hotel and casino expansion proposed by the San Manuel Band of Mission Indians.

The Tribe is an important part of our region's economy and has contributed greatly to the economic resurgence of the City of San Bernardino. Since 2016, San Manuel has increased its number of employees from over 4,000 to nearly 4,500 workers with an estimate 70 percent of those employees coming from within San Bernardino County.

The Tribe's economic impact to San Bernardino County alone is estimated at more than $1 billion. The new expansion has the potential of generating 1,400 construction jobs and 1,200 permanent jobs that span a broad variety of education and skill sets.

A12-1

San Manuel is more than a casino, it is a generous philanthropist and an important partner in helping our region grow and thrive. The Tribe's impact extends to education, health care, community service, infrastructure, public safety, and the arts.

Our organization has had the opportunity to learn about the Tribe's proposed hotel, casino and parking expansion and we support the effort. The Building Industry Association, Baldy View Chapter supports the Tribe's expansion and the benefits the San Manuel Band of Mission Indians brings to our economy and community.

Sincerely,

Carlos Rodriguez

RE: San Manuel Hotel and Casino Expansion Project Draft Tribal Environmental Impact Report

Dear Ms. Wade:

Southern California Edison (SCE) is pleased to submit the following comments on the Draft Tribal Environmental Impact Report (Draft TEIR) for the San Manuel Hotel and Casino Expansion Project (Project).

The Project includes the development of approximately 795,000 square feet of new entertainment and hospitality facilities, including a hotel, performance venue, additional gaming area, restaurants and other guest amenities, back of house and administrative facilities, an approximately 2,200 stall parking structure and additional power utility infrastructure. The Draft TEIR was developed in accordance with the requirements of the Tribal-State Gaming Compact between the San Manuel Band of Mission Indians (Tribe) and the State of California.

A13-1

SCE provides electric service to the Tribe's Reservation and maintains electrical transmission and distribution facilities, as well as substations and supporting appurtenances on the Reservation, and in the adjacent City of San Bernardino and County of San Bernardino.

The Draft TEIR for the Project broadly identifies the need for "additional power utility infrastructure" on page 2-1 of the Project Description. On page 2-3 the Draft TEIR states that "Off-Reservation infrastructure improvements, if needed, would include 1) upgrades to existing power poles for the substation energy alternative/variant".

Section 2.3 Energy Alternatives/Variants on page 2-3 provides further information on the infrastructure improvements and states:

SCE is currently studying the feasibility of providing an open air substation ***with new 66 kilovolts (kV) transmission lines*** *that would connect to the existing lines at the corner of Marshall Boulevard and Arden Avenue and travel to the substation location on the Tribe's Reservation in existing SCE right of way on Arden Avenue and Piedmont Drive and on previously disturbed areas of the Reservation."* (emphasis added)

A13-2

This description correctly notes that new off-Reservation utility infrastructure is needed to support the Project, not just upgrades to existing power poles. The TEIR should provide a consistent description of SCE's infrastructure improvements as part of the Project as well as analyzing construction impacts resulting from the installation of those improvements.

We do not see any analysis or details in the Draft TEIR of how the Project would impact SCE's facilities. SCE construction activities, occurring off-Reservation have not been analyzed within the Off-Reservation Environmental Analysis sections within Chapter Three. Specifically, the following resources need to be addressed for SCE facilities: Aesthetics, Air Quality, Noise, Traffic, Cultural Resources and Biological Resources (nesting birds) in order for SCE to utilize this EIR and provide the required support without separate permitting with the California Public Utilities Commission (CPUC).

A13-2 cont.

Again, SCE appreciates the opportunity to comment on the Draft TEIR for the San Manuel Hotel and Casino Expansion Project. SCE looks forward to working and collaborating with the San Manuel Band of Mission Indians. If you have any questions regarding this letter, please contact me at heather.neely@sce.com or 626.476.7839.

Letter I1

From: David Vanburen
To: Jennifer Wade
Subject: San Manuel Project....
Date: Monday, January 22, 2018 10:22:38 AM

Ms. Jennifer Wade,

The flyer that San Manuel distributed to its neighbors listed your email at jwade@esaassoc.com. I kept getting it rejected until I located your exact email address. On purpose by them? I1-1

Regarding the proposed expansion of San Manuel Casino, I strongly oppose it. I reside 2 blocks from the casino and the casino has ruined my neighborhood. The traffic is unbearable and crime has increased significantly because of the casino. The expansion will only made matters worse. I1-2

Before the casino was built, the city of San Bernardino offered the Tribe land away from the current location to build the casino on but the Tribe did not accept it. Instead the Tribe built the casino in the muddle of a residential neighborhood. This is a ridiculous location for a casino of this size. I1-3

I know that the Tribe always gets what it wants so this is probably a waste of time.

To Whom It May Concern:

RE: *San Manuel Expansion Project- Hotel, Event Center & Parking Garage TDEIR Document Comments*

My family has owned our house since it was built and has watched the neighborhood including the tribal lands around us grow over the last 30+ years.

We do not think the expansion of more commercial uses in a residential area is a good thing; we are against it at this location.

The appropriate location would be on the tribal owned land down by the San Bernardino Airport or by the Glen Helen Amphitheatre, where the increased traffic, increase air pollution, increased noise and increase in need for emergency services would be less obtrusive and allow for better and safer access. I3-1

AESTHETICS:

The height of 197' and/or 15 – 17 stories for the hotel is excessive for the area and will tower over everything in the vicinity, causing shadows over people's homes and blocking existing views. PAGE 3.2 – 2 how is a structure that will literally tower over the entire area and will be visible for miles in most directions considered a less than significant impact on the aesthetics of the surrounding area? I3-2

AIR QUALITY:

Per page 3.3-18 states the impacts will be less than significant, how is that possible with 15,000 more cars a day or so, comes a lot more air pollution from the cars, delivery trucks, buses, emergency vehicles etc... I3-3

Also, the cigarette smoke (which was not addressed at all) adds toxins to the air and the additional smokers that come to the project site will add those toxins to the air as well. The project should consider being a NON-SMOKING FACILITIY: The Casino/Hotel/Event Center and Parking areas should all be smoke free, reducing the amount of toxins in the air and on the ground (cigarette butts.) I3-4

HAZARDS AND HAZARDOUS MATERIALS:

Page 3.6-3, Need to prepare an Off-Site Evacuation plan in addition to their On-site evacuation plan to allow emergency responders in to the area not just for the casino/hotel/event center but surrounding neighborhoods as well and allow residents and guests out safely. An emergency evacuation plan needs to be developed for the residential neighborhoods, not just for the Casino/Hotel/Event center guests and employees. I3-5

LAND USE:

As stated on pages 3.2-1 and 3.7-1 the surrounding land uses are single family residential and this project's expansion of a non-compatible commercial land use is irresponsible planning and design. All the houses in the area are one or two stories tall; this proposed 15 - 17 story tall hotel will be at many times taller than the surrounding uses, other than the casino and parking. The hotel will be approximately 197' tall that is higher than most buildings in the downtowns of San Bernardino, Highland, Riverside or Redlands. This is not a commercial area or even a non-developed area this is a RESIDENTIAL neighborhood and this is NOT a compatible land use. I3-6

NOISE:

Restrict the hours of construction: Monday – Friday 8 am to 5pm. Do not allow vibrations from construction such as pile driving to vibrate, shake or jolt the neighboring areas, like it did during previous construction projects for the casino. Page 3.8-5 the tribe has not reduced the noise from the current parking structure, currently sirens are heard 24 hours a day going to and from the San Manuel Casino and the horns and alarms from cars in the parking structure are a noise nuisance already. Make the parking areas and event center so that the sounds that happen within them do not travel off-site into the surrounding residential neighborhoods (maybe add acoustic absorbing materials within the structures or don't have openings in the walls.) Also, the Noise Study needs to monitor areas for more than a mere 15 minutes, they should at least monitor a location for 24 hours to get a better idea of what the ambient noise is at that spot. The sounds carry further at night; the monitoring was during the day, if they don't do a longer duration for the noise monitoring they should at least monitor several times a day. Page 3.8-20 the parking structure will be higher than the adjacent residential areas and the sound attenuation walls, allowing the noise to go into the surrounding residences yards/homes. The higher the structure the more noise not less noise will be heard and if a location is higher than where the sound originated the higher location will hear more noise. (i.e. residences upslope from the casino/event center/parking structure will hear more noise than those level with or lower than the structures. I3-7 I3-8 I3-9 I3-10 I3-11 I3-12

PUBLIC SERVICES:

A Pedestrian and Bicycle (handicap accessible) bridge needs to be constructed to cross Victoria near Lynwood drive and/or Citrus Street for public pedestrian and bicyclist safety. I3-13

TRANSPORTATION AND TRAFFIC:

Despite what the Traffic Impact Analysis shows, they need to find a way to add another major roadway to the Casino complex from Highland Avenue to accommodate the additional traffic. Not only will there be an increase in daily traffic of approximately 15,000 trips upon completion of the project there will be additional traffic of construction equipment and construction crews during the project's construction adding to the delivery truck, bus and other traffic currently impacting the roadways. Pages 4.4.9 and 5.1 No mitigation or modifications for Victoria Avenue? How is Victoria going to keep an LOS Lower than F in the current configuration? If modifications/mitigation will be required on Arden they should also be required on Victoria. A pedestrian and bicycle safe bridge is necessary for pedestrians and bicyclists I3-14 I3-15 I3-16

crossing the Victoria, children cross this street to go to and from school and need to do so safely. Page 3.10-13.3 Removing crosswalks is only okay, if they are replaced with a raised pedestrian bridge over Victoria Avenue, allowing bicyclists and pedestrians (including school children) to cross this increasingly busy street safely.

I3-16 (cont.)

WATER RESOURCES:

The Water analysis didn't address how the tribe would keep trash and other debris out of the flood control channel and storm drains on/off site. The project needs to maintain all areas on-site and within the vicinity of the project (i.e. along Lynwood/Victoria) trash free and cigarette butt free. The trash and cigarette butts dumped by casino/event/hotel patrons can not only make the area look bad but, the items can end up in the water ways, by getting into the storm drains and the adjacent flood control facilities polluting our water and our oceans. The casino/hotel should have daily cleanup of the parking areas and the streets leading to their facilities to help prevent this additional pollution and water quality issue.

I3-17

AGENCY AND PUBLIC COMMENTS:

Page 6-3: Despite the response that "locating to an alternate location is not viable and would not enhance the experience of existing customers" By expanding their commercial site in a residential neighborhood is not enhancing the lives of the existing residences that live near the casino complex. No more commercial in our once quiet residential area please. We still believe that this project should be somewhere it belongs; away from residential neighborhoods and where the roads can accommodate the traffic, such as near the San Bernardino Airport or Glen Helen Amphitheater lands owned by the tribe already.

I3-18

Thank you,

Mr. & Mrs. J. Williams

From: Linda Massenzo seabrightdays@yahoo.com
Subject: Tribal environmental impact for homeowner
Date: Jan 25, 2018 at 7:32:14 AM
To: jwade@esassoc.com

To whom it may concern,
We are one of the three houses on Willow Drive that abuts the San Manuel property. Our concern is general noise factor. The noise now is a loud humming sound we hear inside our house from the Air condition Units for the Casino. When building a hotel it will increase the noise since more Air Condition units. Now we have to turn on TV to fall asleep. This is not even commenting on the additional noise that will take place. I would like to request that the sound would be* measured at our property so that you could understand any additional noise would be devastating and unbearable. I4-1
Please take this in mind when investigating the impact on our home. If nothing is done for the noise we will have to sell our home; which we have lived here since 1980.
Thank you, any questions please call Linda Massenzo at (909) 855-7517. * 3465 Willow Drive, Highland, Ca. 92346 Soundwall is needed

Comments: I have seen all of the changes to the streets, for instance the restriping and retiming of the traffic signals in certain interchanges. My question concerns the offramps and on-ramps of the freeways, particularly the 210 west and eastbound freeways. Has the tribe considered, flow of traffic lights for onramps? Have they considered widening? (Since this has to also involved city of SSB). / Have they considered what the monetary gain will be for the city? ~~Have they considered~~ I have lived here my whole life and I know San Manuel is good for the community. These are just my concerns

Comments: Very great presentation! There's a lot of great information being given to the public about this new project and something very important and encouraging was the emphasis on bringing both revenue and jobs within our Community. As an IBEW 477 member, it is exciting to know how much keeping these projects is and hope that, if what was said is true, a project this size will bring lots of opportunity and work for our Comty! Any questions or comments in regards to our hall or what our younger members are doing to get involved please feel free to call! I'd love to hear from ya guys. Thank ya! 951-616-4549

Comments: On the topic of local hiring I would like to see some form of system implemented to monitor Sub-contractors, and where they are from. I believe that Companies that are out of County or out of state should not be used on such a large project for our community. To expand on that, I believe it is in the best interest of the community to use Local Trade Unions to complete this project. Union members live in their countys, and put out the highest quality of work as it is a representation of their local and their City. Thank you for taking time to read my comment,

IBEW Local #477

Comments: I would very much like to see all the construction of this project hired out to union members only. The Unions of this county supply much more than just a paycheck to it's members. They invest into their members the training, skill and knowledge they need to be succesful wherever they go. If you go union with this work you will further your Reach of help to the community by using local union hands. May God bless you and your decision

Comments: I as a member of this community would like to see as much of the work go to the members of the community. I would like to see efforts be made to reach out to local union contractors and members for trade work. These are the people who you can guarantee most likely to use your facilities and will form feelings of trust and appreciation amongst fellow community members. This is a project happening in our own backyard, so who better to construct it than union members in their own community.

Subject: New hotel and casino project
Date: Thursday, February 1, 2018 11:25:53 PM

Hello,

I am concerned how the additional impact on the 210 freeway has been addressed or not addressed. The freeway bogs down to a stop at the Highland Ave exit on the 210 east bound.

The added hotel guests and casino patrons will further impact this section of freeway and cause stopping or slowing depending on time of day.

I16-1

Thank you,
Dean

Subject: Follow up on noise concern at 3465 Willow Dr. , Highland, Ca.
Date: Wednesday, February 14, 2018 6:19:44 AM

Dear Jennifer,
On my original email I did not include my address at 3465 Willow Dr., Highland, CA 92346. It's important that the sound check is done at my residence. Since our property abuts San Manuel Indian property it's a concern for as there is no Sound Wall or Double Pane Windows. Our home is a two story next to the foothills, which the sound amplifies upstairs. It's not only sound we are concerned with, it will be noise, light, privacy, traffic, property value. While at the first meeting to the public I met Bryan Benso, who said he thinks they could do something. Please contact me at (909) 855-7517 so we can make a appointment to come to my home.

I17-1

Re: San Manuel Hotel + Casino Expansion

My husband and I are retired State employees who live very close to the San Manuel Casino. I'd like to give my input regarding the Hotel + Casino expansion project. Below is a summary of my thoughts: I18-1

Pros:
- Increase in community income (donations)
- Increase in jobs
- Community news + San Manuel activities shared with neighbors close to the Casino.
- Solicitation + encouragement of neighbors input.

Cons:
- Increased traffic (guests using alternate routes to the Casino) - i.e. Piedmont (dead-end + Victoria) I18-2
- No turning light at Citrus/Victoria (except for evenings + nights) I18-3
- Casino guests make U-turns + run red lights often. I18-4

- Increase sirens heard days + nights (guests) I18-5

- Increase in foot traffic (undesirable guests)
  - Gate at Piedmont/Victoria is open during school days + breaks.
  - Casino guests walk through all hours and sometimes ask for assistance or items they want (i.e. jumper cables, wire hanger, bus fare, etc.)
  - Casino guests run through the gate after committing crimes at the Casino. (I witnessed a few).
  - Casino guests leave litter all along Piedmont Drive. We removed an Olive tree on the corner of our property to minimize the issue (casino cups, beer cans + bottles, syringes, medical marijuana containers, used condoms + food wrappers)
  - Casino guests meet people inside the gate at Piedmont/Victoria to drink + do drugs on the curb, then walk back to the Casino.

I18-6

- Increase in local crime (homes close to the Casino).
  - Home burglaries
  - Thefts
    - Cars broken into, items stolen
      - daughter's Ipad + glasses
      - neighbor's back license plate

I18-7

Suggestions:

- Increase Security presence for homes very close to the Casino (days & nights) I18-8
- Keep the gate at Piedmont/Victoria locked at all times & only open it for Casino employees with Casino I.D.'s. to attend or leave work. I18-9
- All other Casino guests can use Citrus & Victoria to attend the Casino. I18-10
- School children from Serrano Middle School can walk to Citrus to go to school. I18-11
  - Citrus runs directly into the school parking lot.
- Build an electronic gate at Piedmont/Victoria for Casino employees to open/close with their I.D.'s & codes. I18-12

These suggestions may not eliminate the mentioned issues, but can minimize them tremendously. My husband & I have lived here since 1993 and would like to see our neighborhood preserved and protected while San Manuel moves forward with its Casino & Hotel expansion project. I18-13

Sincerely,

Shirley Dorsey

Off-Reservation Environmental Feedback

I have lived at the corner of Valaria and Marshal(3186 Valaria Dr) for the past 27 years. I am old and cannot afford to relocate anywhere else.

My neighbors and I (ADDRESS: Valaria Dr. N and Marshall Ave) got together and determined the following Off-Reservation Environmental issues, if not severely mitigated will SIGNIFICANTLY IMPACT OUR QUALITY OF LIFE.

I19-1

Aesthetics	What improvements on the current sound walls and landscape and lighting are you going to include in the area Valaria Dr and Rockford on the Marshall Avenue cul de sac? We often hear noises from the Casino at all times of the day.	I19-2
Air Quality	There is an East Valley Water District sewer hole (for lack of a better descriptive word) on Valaria Dr. N near the Marshall intersection. When we have called EVWD to investigate, they say it's the sewer smell from the Casino that is smelling. It fouls the whole street/vicinity. EVWD when they finally show up, are usually there for hours supposedly cleaning it but then it happens again and again. We are forced to stay inside the house not to smell it for days. What improvements are in place to fix this condition, especially if you will be adding more than 4000 hotel beds and other rooms and cooking facilities, etc.? What are you doing to mitigate this condition and to ensure it does not get worse or surface somewhere else. This is a serious air quality issue that has been affecting our lives for a long time.	I19-3
Biological Resources	We have possums that roam the streets at night in this neighborhood. Where are they coming from and what are the impacts of this development on their habitats?	I19-4
Land Use	Fix the streets/Pave	I19-5
Noise	Traffic noise on Lynnwood and into our neighborhood needs to be mitigated.	I19-6
Public Services	We are concerned with safety with increased people. Can you work with the city to assign law enforcement office by the casino or even in the neighborhood? That would deter all the people walking along Lynwood and into our community of all time to the day and night. What can be done to sustain this effort?	I19-7
Transportation and Traffic	1. The routing of traffic to and from the reservation need to be revisited. Are your patrons going to access the Casino through Arden as you are planning improvements on Arden? And they to Lynwood or Marshal or what? We have a school and right now the traffic is dangerous. Your patrons are coming through Lynnwood and high speeds causing a real disaster to occur. We suggest you reroute traffic away from Arden/Lynnwood and improve the sound walls on Lynnwood if some increased traffic uses this street. 2. Can you find another sport at the bus stop? People linger there and there are kids walking home from the elementary and middle schools and the people are questionable. How can you mitigate this issue.	I19-8 I19-9
Utilities and	Please address how the sewer systems from the Casino are not going to impact the off-reservation residents as previously described.	I19-10

Service Systems	
Water Resources	

I19-10 cont.

Subject: San Manuel expansion
Date: Friday, February 23, 2018 11:39:42 AM

My concern is the traffic on Victoria in the event of a Emergency. Years ago we had a fire and were told to evacuate. We have 2 ways out and it took us over an hour to get to Highland Avenue. San Manuel closed early that day but the traffic was Scary. They did a great job moving their customers out. Their fire department also did an excellent job hold the fire. Can you imagine how bad it could be with the hotel and everything else they are building. We will never get out. I20-1

I am happy for the success the tribe has had and I wish them well. But isn't there another location they can use for this? I20-2

From: Ralph Abramo
To: Jennifer Wade
Subject: comment on San Manuel TEIR
Date: Monday, February 26, 2018 8:54:31 AM

Dear Ms. Wade,

Thank you for accepting my comment in regards to the Environmental Impact Report drafted for the expansion project of the San Manual Casino in Highland California. I am a local resident who resides on N. Bangor Ave between Citrus and Piedmont across from the middle school. While the study does include a traffic evaluation on Victoria Ave which is the main road out of the Casino, it does not appear a study was done to evaluate the impact of increased traffic on neighborhood streets that surround the casino such as Citrus and Bangor Ave. I've spoken with several neighbors and our concern has to do with the neighborhood traffic caused by backups and delays on Victoria whenever an event wraps up at the casino. When there are traffic delays on Victoria, many drivers opt to turn left on Citrus, left on N. Bangor Ave, right on Piedmont then right on Orange in order to get to Highland Blvd which if they turn left will take them to local freeways. Events at the Casino can finish up as late as 10-11pm in the evening and the resulting increase in neighborhood surface street traffic is unacceptable. While I am not against the expansion of the Casino, I am concerned about the increased neighborhood traffic, the traffic noise that occurs and the disregard of local traffic laws like speeding and running of stop signs that occur late at night. The increased traffic noise makes it difficult to enjoy our home and sometimes impacts our ability to sleep.

I21-1

I am asking that an evaluation be done to determine if measures can be implemented that would discourage casino event attendees from using neighborhood surface streets like Citrus and N. Bangor to get to Highland Ave in order to avoid the traffic on Victoria; measures like signs, police presence or even gates with local residence access only to stop the annoying traffic flow. Unfortunately I was unaware of the local informational meeting that took place in January and I would like the opportunity to express our neighborhood concerns.

Thank you and look forward to a response.

Sincerely,

Ralph Abramo

Attachments: image001.png

As a resident and neighbor of the Casino I am curious about which roads will be used to enter the San Manuel Casino expansion that is being planned. There are already too many vehicles that use Victoria Avenue and Arden Avenue and according to the flyers that were sent out to the neighborhoods you will be adding 1400 more vehicles during the construction phase and then 1200 vehicles once your planned expansion is completed that will be impacting the roads. All the added traffic on our roads will cause them to deteriorate much faster not to mention the noise that will accompany all those vehicles as they travel through our neighborhood to get to the Casino. What types of noise control will be put in place to adhere to the local noise ordinance? I22-1 I22-2

How will neighborhoods in the vicinity of the be protected from criminal activity? I22-3

Letter I23

From: Ralph Abramo
To: Jennifer Wade
Subject: Comment on draft TEIR
Date: Monday, February 26, 2018 10:21:06 AM

Dear Ms Wade,

I appreciate the opportunity to comment on the TEIR and to raise concerns regarding traffic control improvement measures outlined in the DTEIR. While I understand a detailed study was undertaken to evaluate the traffic or the potential increase in traffic on Victoria, I'd like to mention the practical adverse effects I notice as a resident living on Bangor Ave between Citrus and Piedmont. At the time when concerts or events take place at the Casino, many drivers will avoid traffic delays on Victoria heading to Highland Ave and opt to drive through the residential area. They turn left onto Citrus from Victoria, turn left on Bangor Ave and then right on Piedmont then right on Orange to shortcut to Highland Ave. The amount of increased traffic and resulting traffic noise in the evenings as late as 10 and 11pm when these concerts conclude is unacceptable and it impacts the enjoyment of our home. Many drivers speed through the streets without regard for speed limits in residential areas. After reading section 3.10 of the TEIR, it does not appear that a study outlining the increased traffic flow at the intersection of Citrus and Victoria or the resulting impact this increase will have the surrounding neighborhood was called for or done. I am not against the expansion of the Casino but I'd like to know if an environmental impact study can be done to study the results of the increased neighborhood traffic or if anything can be done to discourage drivers from shortcutting through our neighborhood. Signs stating residents only, police patrols on events nights or similar means to discourage drivers from shortcutting through the neighborhood surrounding San Manuel Casino.

I23-1

Please let me know what I can do to bring this issue to the attention of the proper personnel.

I thank you for your consideration.

Sincerely,

Ralph Abramo
2994 Bangor Ave
Highland

Letter I24

From: trannymedic@aol.com
To: Jennifer Wade
Subject: San Manuel Expansion project
Date: Monday, February 26, 2018 11:55:15 AM

Hi, I am an area resident. I live at 2930 Pepper St. I am a happy neighbor to the Casino. I am not opposed the the expansion that is proposed. But when I looked over the lengthy impact report I am not seeing any significant improvements to traffic flow. Current traffic flow is terrible and dangerous at times. There are only two streets that allow access to my neighborhood, Orange St and Victoria Ave. The heavy casino traffic (which is very unpredictable) makes access via Victoria Ave very difficult, if not impossible. This leaves only Orange St for the thousands of residents in the area.

When I use Lynwood Ave to approach from the west the route becomes very dangerous because of the way that traffic is kept from entering the casino from that direction. Traffic is forced to turn right at the intersection of Lynwood and Victoria. This may be good for the casino, but it is dangerous for the area residents because the casino patrons that want to enter the casino from that direction make a legal right turn onto Victoria, then either make an illegal U-turn on Victoria at Citrus, or make a legal left turn from Victoria to Citrus then make a very dangerous illegal U-turn at the corner of Citrus and Havasu Ct. This is especially dangerous because the illegal U-turn is initiated from one side of Citrus crossing right in front of oncoming traffic which has just made a similar left turn off of Victoria. The oncoming traffic (which is me on a daily basis) cannot stop to make room for the illegal U-turn made by the casino patron because there is oncoming traffic on Victoria in both directions. This is even more dangerous and possibly even deadly for motorcycle riders. I have had many serious close calls when coming around the corner on my motorcycle. There is a No U-turn sign posted at the intersection of Havasu Ct and Citrus but it is routinely ignored by the casino patrons. Almost every time I use that intersection to approach from the west there is a casino patron making a dangerous illegal U-turn there. Within 20 minutes of writing this comment, I had one driver cut in front of me when he was making an illegal U-turn and the vehicle behind me also made an illegal U-turn there after I passed. I24-1

We also get very significant undesirable traffic flow through our neighborhood from casino patrons accessing the casino from Orange St. I recently had casino patrons stop and urinate in the street in front of my house. I got the license number and reported to police, but nothing ever happened. There are also taxicab drivers that continually park in our neighborhood and spend many hours loitering and sleeping. I24-2

I am also concerned about the runoff of water and mud from the reservation above us when it rains. At the current time, when it rains, there is considerable mud runoff from the reservation and in heavy rain storms, homes have been threatened and lost to mud flow due to reservation construction habits. There is currently constant water running through the streets from the reservation at Central Ave and down Pepper St to Lynwood. Future construction must address these issues for the safety of our homes.
If you would like to contact me regarding these concerns or your concerns as our neighbors, that would be fine. I24-3

Thank you for considering our needs as your friendly neighbors,
Doug and Mary Betten

JUSTIN TILLMAN:

My biggest issue is I am an IBEW guy now, but I wasn't for a long time, we have a lot of out-of-state or out-of-county contractors, and I would like to see the money stay local in San Bernardino county. If it goes union or not, it would be nice if it is a local hire situation. A project labor agreement, I'm not saying this project needs one, but something to assure that a percentage of the jobs was locally hired as far as the construction site. T5-1

//

//

HIGHLAND, CALIFORNIA; THURSDAY, JANUARY 25, 2018

SAN MANUEL HOTEL AND CASINO EXPANSION

PUBLIC INFORMATION MEETING

OFFICIAL STATEMENT

(Page 6 of 8.)

GARY QUIEL:

My house is located about 500 feet -- I reside about 500 feet away from where the parking structure is going to go on the east side of Victoria. As I look out my window this morning, I have a two-story house, I have a nice view of the mountains, and now, there is a parking structure going in and all I'm going to see is concrete walls. I have a concern. T6-1

I'm not convinced that the noise litigation or noise study is correct because there is a lot of noise there. I feel it is flawed. I mean, we hear car alarms, we hear sirens, we hear people talking, we hear yelling, so I don't believe some of these studies are correct. T6-2

As far as the aesthetics, yeah, it might be a nice looking concrete structure, but it is going to devalue my property, and who wants to buy a house where all they see is a big concrete wall? T6-3

And the traffic, I don't see how they think it is not going to affect the traffic flow. It is a mess right now, and now, we're going to go add a 500-room hotel and more T6-4

parking structure.

So as far as the Environmental Impact Report, I feel there is fraud in several areas.

I'm really upset. I never got any comments back from the questions I sent in.

Again, I'm really concerned about the devaluation of my property. Why don't they put three of the stories underground so it is not elevated so high? The higher they go up, that sound is going to travel through that structure because it is all open air.

HIGHLAND, CALIFORNIA; THURSDAY, JANUARY 25, 2018
SAN MANUEL HOTEL AND CASINO EXPANSION
PUBLIC INFORMATION MEETING
OFFICIAL STATEMENT
(Page 8 of 8.)

ART:

I was just saying that the way they gave out the flyers on everybody's doors for the hotel, can't they go within a quarter mile of the hotel and do a little survey and ask people that live around there and ask what are some of the issue we encounter and let us fill it out because we'll give you better feedback than someone walking down the street one day because we're there 24/7. So just a little survey, "What do you think? What can we do? How can we help? What are the main problems that we encounter?" Can't you do that with just a little survey paper? You can do it with that. Maybe put an already posted envelope in there and ask people to mail it out to you guys. It might help, it might not. The people in the neighborhood know more of what is going on in the neighborhood than the police, or the Indians, or anybody. T7-1
